Gentlemen,

I must write you a few lines in praise of your Hollow Stunt belts,
the advantages of which cannot be overestimated. I can, by itself,
them, make them up to any weight I require. It has been
those you made for me for the past two years, and have more than
doubled my strength during that time. I find that the danger of
over-straining, throughout pupils trying to lift too heavy, is entirely
obliterated, by reason of the ability to graduate the weight of the
hollow belts. I must also say a few words in praise of your Rubber
Chest Expanders, as during a long tour through the provinces,
I have managed, and I am sure, greatly increased my strength by
their use.

Yours truly,

T. A. FOX
