July 15. 27.

Dear Ethel.

I received your very welcome letter yesterday but suppose by now Ottley has received my last letter mailed this week which will explain to him the delay. I would have wrote to you yesterday but the heat here was so terriffic I did not do a thing. It kind of made me sick. I had eaten some fish and it likely reeoted.

With reference to Ottleys account with Redmond tell him by all means to seek settlement. It will not hurt Man Power or me one way or another any more than it has. Redmond ~~react~~ cannot react on Ott in that manner.

Before I left I asked Redmond to settle forthem but he always put it off. Tell Ott to write a nice business letter asking no favors and giving none. Just an account statement.

Now Ethel I have not lost sight of my visit to you. I did not want to start out until I had things pretty near straight. I want to go over to see Phil and Bess sometime and do nt know wether I will get up before or after to see you. I want to get some other issues straight so I can tell Ott more definitely how my plans and his are looking.

I was glad to hear from you Ethel, and of course I know the old boy is busy but tell him not to work too hard in this heat and I will see him, so bye bye for now with love to all.

As ever
