June 9. 24.

Dear old pal.

I was out a few min: Sunday, with DePew & Shaffer,
& Ethel Told me you said it was O.K. for me to
come out as soon as I liked, so I gather from this, that you & Core
have talked things over, & he is willing to listen, anyway.

It this is not so, let me know, as it is no
use me coming on a wild goose chase, as you will have heard from
Ethel before this, & probably will be home to see the boys perform on
Sunday June 22nd.

Listen Ott: I wrote to Dennis c/c Mr Anderson, at
Newville Pa, & do not know if it is right, so will you write also?

I intend to come to Uniontown this coming Sunday,
tho if you can tell me any news by waiting for the Sunday after, when
we expect you to come here, I will do so. Let me know.

With reference to that P.O. affair. I went to-day,
but the guy who was to look after it, is in Cal, & will not be back for
two weeks or more, & they will let me know, & it is the Chief Inspector
who wants to see me, or one of us, & his aides, said, he must want to
handle it himself, as he left no word for him to take care of it. He
said, that he thought if it was very important he would have left a
notice, which he did not, but he could not say, as he knew nothing
about it.

He said someone must have been complaining on us, &
maybe he was just wanting to investigate himself. So you have all he told
me, & it is no use speculating, as we could draw no conclusions, as I
have not the least idea what it could be.

Just as I was talking to the guy, who should push his
way into the room, but Barzen, & demanding this & that, when I had
things pleasant, but I shut him up, & am leaving him saddle it, & he
did not want it, so I let the guy take Barzens phone etc, the Barzens
resented it as he plainly showed.

When we got out I told him dammed straight that when he saw the Inspector he wanted to keep quiet, & listen, & not bluster like a big bull as he always did, to appear big.

He wanted to know how he was going to be paid back, & told me of all the notes he had to pay, I told him that was not our business, as we gave him money to pay our bills & he misapplied them to his own personal affairs as he confessed, & we charged them up to him, & we was not paying his personal debts, & he had to show me where he borrowed over a thousand to run the concern.

He claims we owe him over \$700.00 I told him the concern only was in debt about \$200.00 & as he had taken out the machines & sold them we were square.

He did not know what to say, but I told him he was reaping all he had sown, & by the time he got through he might begin to accumulate some brains, as he did not want to listen to they who would have helped, as he knew it all, & was toodammed idle to live.

The guy he was in with on the motor car affair has turned both him & Hartman out, & took someone else in with brains & cash. He is sore, & looking for another job.

When he heard I intended to come out to see you Sunday, he said he would come to, but nothing doing. He wanted to know how you stood, & wants to put out the booklets, & keep the cash for himself. I told him that you was through, & we could not use the booklets unless we paid you a third, as you would not allow it. It was a good stall.

He is furious. I told him to think a little before he made his next step, as it would be something new for him, & then he might realize some actual facts.

Well. I shall be out Sunday to see you if you say all is O.K. & you can meet the Sunday morning train, whatever time it arrives in, & if i can get out Sat night I will, & will come to the "Y".

Let me hear from you by return.

As ever. Your old pal.

If you have not time to
write call me up or wire.
