

Phita Sat.

Dear Alth.

I really was disappointed to find no mail here today from you. I know something important has kept you from writing as you promised in your letter last week.

Things are the same as I wrote Wed. They have no notion they may go over the C.L. names again but not till Jan for Thanksgiving & Xmas are to close, the going to be a hell of an Xmas for me.

However I have got more dope on prices for our scheme, inside dope that cuts prices in two. By the first of the year you & I should have our lists out. First we must have our files correct. I have made two tests per 100 lots already which proves our list. Of course a small list like that don't pay expenses but it proves your word.

We were expecting the Barker names have you sent them. Don't hold them any longer Alth as they have asked me to wire Barker. Those names must all go on stencils. I have a first class filing & perf. making the lists we have 100%. If you get the Barker names that should give us about 10,000 names, Ample for lists & more

They are proved I can get money to shoot the big list,  
which would mean we would have to buy up the list &  
then mail it.

I still bank on the chance to see you if  
only for a few hours. Suppose I could do no better than  
make an excursion to Feltsburg on the weekend. Would  
you meet me there? We have got to get together to settle  
the handling of these things.

Excuse me for now but please  
write

Your old Pal

Geoff
