

Inkerman. Ont: Canada.
Jan. 3. 23

Dear Friend.

I have just received a letter from John Sloan of Spring Lake N.J.. This man gave me his sub to our asso: when I was in N.Y. & I gave it to you, & I have it on the list of names you sent in, & he writes that he has never received a copy of H & L at all, & wanted to know if it in existence, & as you sent in the sub: I want you to write the editor about it.

Dear me, but I am getting discouraged writing Mr Bernard & getting no answer. I have wrote & wrote for them record certificates, & members are continually writing me to know what we are doing, & he does not reply. Many good men have offered to help, & I have refered the letters to the editor, but he does not respond.

I have asked the representatives to write him & see if they can get some answer, but I have not heard from them.

I cannot understand why you do not write.

What is wrong? Are you sick?

Surely I have done nothing to provoke you;

I have wrote three times now, & I must ask you to answer this to know if you intend to go ahead with that hooklet proposition, & if you desire to entertain the other proposition, as I have other parties who might be interested in a tour as I suggested, but I would much prefer you, as I beleive you are so sincer & concientous.

Please get after Sloans Sub:.. I write & let me know what solution you can offer to wake up the editor.

Willoughby is working hard in Cal: & doing good work, butw ants them record certificates, & we have appointed Holt for N.H.

Snyder is very earnest about his match with Marineau, & has got one of Pullums war & belt from me, I gave him a good deal on them.

Strange, Marineau has not answered my last letters at all.

Well old man, do please write, as your silence is worrying me.

With kindest regards for the new year.

I remain.

Your very sincere Friend.

George

When you answers this I will have some news to tell you of another Guy trick with Snyder & another affair that has come to light
