

Mr. Harold Numm, chairman of the B.A.W.L.A., informs me there may probably be a special exhibition of the celebrated half-arm lift by a well-known member of the club. "Indeed," he writes, "a record may be accomplished by him on this great occasion. I know he will do his best. He always does."

Now, what Mr. Numm means by the half-arm lift remains to be seen. It is not recognised officially by either the professional or amateur association. One's curiosity is naturally aroused.
